Star City & Non-Slip: unwilling to gamble on floor safety.

Star City's pool area after receiving the Sure-Grip treatment, exclusive to Non-Slip.

The work done on the Star City mega-complex is an example of Non-Slips flexibility. The brief was to treat the pool surrounds in a way that the ongoing maintenance could be carried out by Star City's own team.

Non-Slip implemented its Sure-Grip Safety Programme, which not only enhances the floor traction initially, but improves with ongoing cleaning.

"Star City has a commitment to its guests that the pool area be clean and safe. A slip-fall accident would be disastrous for their reputation, so we worked together to ensure a safe footing on the pool surrounds. With regular maintenance, the Sure Grip Safety Programme ensures a safe, clean surface for years to come" ... Jay Ganatra C.E.O. Non-Slip Floor Solutions.

Slip-fall accidents comprise a high percentage of insurance claims in Australia. As our lives become busier, we need to know that the surface that we're walking on is safe. Councils and businesses are becoming more aware of their responsibilities to workers and the public in ensuring that their surfaces are slip-free.

Don't wait until someone slips on your premises. Contact Non-Slip for your floor traction solution.

Don't trip... Non-Slip.
