

Laparoscopic Disposables

high quality, single-use
instruments & devices

WA Distributor:

Monopolar Scissors

SINGLE USE Laprosurge Disposable Scissors offer controlled coagulation and transection of vessels and tissue. Available in both standard 17mm blade length and shorter 12mm blade length, they are suitable for every application.

- No maintenance, cleaning or sterilising and blades are always sharp
- Designed for comfort and ease-of-use
- 360 degree rotation of jaws
- Fully insulated shaft provides safe current containment
- Diathermy connection can be used with either reusable or single-use cable
- Available with 12mm or 17mm blades
- Supplied sterile in box of 5
- Latex free

Monopolar Graspers & Dissectors

SINGLE USE Laprosurge Disposable Graspers and Dissectors offer the precision and control of reusable instruments along with the convenience of being disposable. All graspers have ratchet control handles, while the Dissector has a standard handle to ensure complete control.

- No maintenance, cleaning or sterilising.
- Jaws are always aligned and functional
- Designed for comfort and ease-of-use
- 360 degree rotation of jaws
- Graspers all have ratchet control handle
- Fully insulated shaft provides safe current containment
- Diathermy connection can be used with either reusable or single-use cable
- Supplied sterile in a box of 5
- Latex free

Tissue Retrieval Bags

SINGLE USE The Endo Retrieval Bags enable quick and simple capture of resected tissue and minimise the risk of site infection and carcinoma seeding.

- No maintenance, cleaning or sterilising
- Insertion aided by 10mm trocar
- Self-opening and sealing pouch ensures safe tissue capture
- Non-porous, tear resistant pouch is transparent to enable tissue visualisation
- Available in various sizes and configurations
- Supplied sterile in a box of 10
- Latex free

WA Distributor:

Diathermy Electrodes

SINGLE USE

The Laprosurge L-Hook and Spatula Electrodes guarantee complete insulation in every case. Available with single-use monopolar cable attached, these electrodes offer convenience and economy by saving costly cleaning and maintenance processes.

L-Hook HE002

Spatula SE002

- Disposable electrode requires no cleaning, sterilising or re-insulation
- 5mm diameter, 33cm length
- Available with single-use, monopolar cable included in sterile package
- Lightweight design for surgeon comfort and ease of use
- Fully insulated ensuring safe current containment
- Supplied sterile in a box of 10
- Latex free

L-Hook

Spatula

Verres Needles

SINGLE USE

Designed for the creation of the pneumoperitoneum, disposable Verres needles are safe, effective and simple to use.

VN150

- Disposable system requires no maintenance, cleaning or sterilising
- Super sharp tip enables easy controlled insertion
- Spring shield retractor minimises accidental organ damage
- Available in both 120mm and 150mm to suit all patient sizes
- Supplied sterile in a box of 12
- Latex free

Aspiration Needles

SINGLE USE

Used for either laparoscopic aspiration or injection, the Laprosurge Aspiration Needle is ultra-sharp to enable easy, atraumatic penetration.

AN001

- Disposable needle requires no maintenance, cleaning or sterilising and is always sharp
- 5mm diameter, 33cm length with Luer-lock connection
- Luer Lock enables connection to either syringe or wall suction
- Supplied sterile in a box of 10
- Latex free

Anti-Fog Solution

SINGLE USE Anti-Fog Solution enhances visualisation of the operative field by eliminating condensation on the distal end of the laproscope.

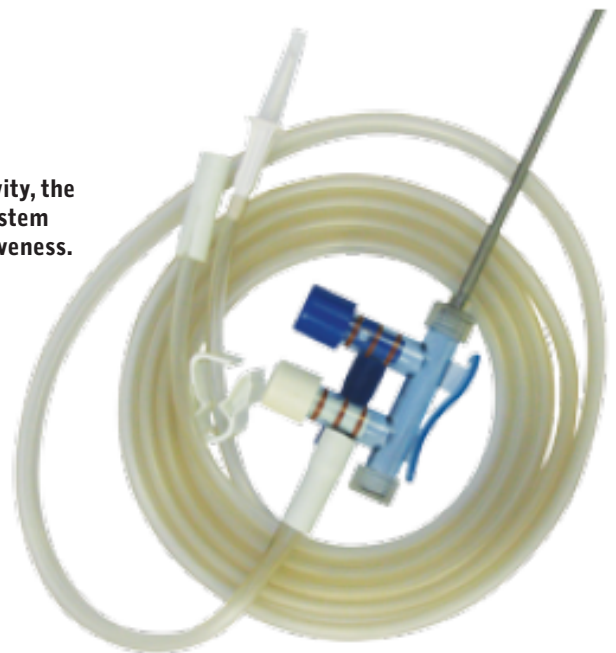

- Contains mild alcohol to enable instant evaporation
- Includes non-abrasive sponge to allow cleaning of laproscope
- Comes in 5ml bottle for convenience
- Supplied sterile in a box of 20
- Latex free

Suction/Irrigation Kits

SINGLE USE Used to irrigate and aspirate fluids within the abdominal cavity, the disposable Suction/Irrigation kit is a simple, yet effective system that will improve infection control and increase cost-effectiveness.

- Available in single and double spike configurations
- Small, ergonomic handpiece ensures optimum comfort and control, particularly for surgeons with smaller hands
- Pistons colour coded for easy identification
- Holes in distal end of shaft prevent damage due to accidental aspiration
- Supplied sterile in a box of 10
- Latex free

D-Help

Defogging, heated endoscope lens protector

The ultimate product for enhancing the surgeon's view during laparoscopy. This disposable device is designed to eliminate fogging, white-balance the scope, clean the scope, protect the scope and eliminate fire hazard from fibre-optic light.

Also available...

A wide range of reusable laparoscopic instruments and accessories made in Germany are also available, including:

- Telescopes and endoscopes
- Trocar and Port Systems
- Mono and Bipolar Electrodes
- 3mm, 5mm and 10mm instruments
- Scissors, Graspers, Needleholders
- Knot Pushers, Probes, Retractors
- Biopsy Forceps
- Cholangiogram Fixation Forceps

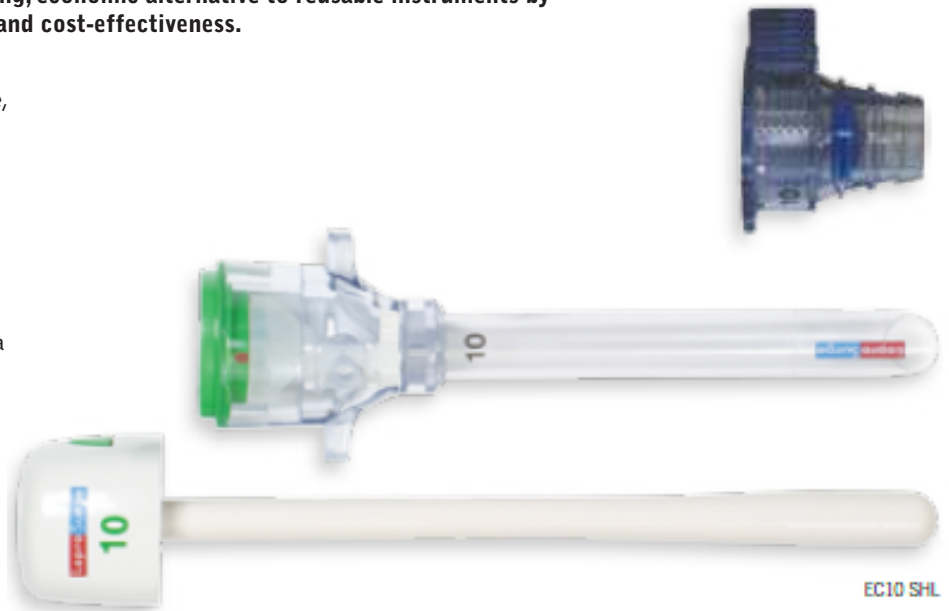

WA Distributor:

Hasson Trocar & Cannula System

SINGLE USE

Designed for use in open technique, the single-use Hasson Trocar and Cannula system offers a challenging, economic alternative to reusable instruments by combining functionality and cost-effectiveness.

- Disposable system requires no maintenance, cleaning or sterilising
- Locking mechanism on cone enables adjustable cannula insertion depth
- Cannula is clear and radiolucent for enhanced visibility
- Blunt obturator reduces risk of internal organ damage or abdominal viscera trauma
- Suture stay posts for effective device anchoring
- Includes stop-cock with Luer-lock connection
- Available in 10mm and 12mm
- Supplied sterile in a box of 5
- Latex free

Shielded Trocar & Cannula System

SINGLE USE

Using a sharp, flat-blade tip, the Shielded Trocar enables smooth, controlled entry (requiring minimal force) and leaves a smaller defect than pyramid-tip trocars. Combined with the clear, radiolucent cannula, the Shielded Trocar and Cannula System is convenient and functional while remaining cost-effective.

- Disposable system requires no maintenance, cleaning or sterilising
- Flat-bladed dilating tip with spring-loaded shield
- Cannula is clear and radiolucent for enhanced visibility
- Retention ridges on cannula enhance stability
- Includes stop-cock with Luer-lock connection
- Available in twin-pack systems (1 x trocar, 2 x cannula)
- Available in 5mm, 10mm and 12mm
- Supplied sterile in a box of 5
- Latex free

TROCAR REDUCERS also available:

- 5mm – 12mm reducer
- For use with 10mm or 12mm cannula
- Supplied sterile in a box of 20
- Single-use

Code	Description	Pack
Monopolar Scissors		
LS006	5mm Curved Scissors, 33cm with Diathermy, 17mm blades	5/Box
LS007	5mm Curved Scissors, 33cm with Diathermy, 12 mm blades	5/Box
Monopolar Graspers, Dissectors		
LG001	5mm Atraumatic Grasper w/Ratchet, 33cm, with Diathermy	5/Box
LG002	5mm Clinch Grasper w/Ratchet, 33cm, with Diathermy	5/Box
LG003	5mm Claw Grasper w/Ratchet, 33cm, with Diathermy	5/Box
LG004	5mm Babcock Grasper, 33cm with Diathermy	5/Box
LG005	5mm Curved Dissector, 33cm with Diathermy	5/Box
Tissue Retrieval Bags		
RB001	1 x 3" x 6" Endo Pouch with 110mm delivery system	10/Box
RB002	1 x 3" x 6" Endo Pouch detachable	10/Box
RB003	1 x 5" x 7" Endo Pouch with 110mm delivery system	10/Box
RB004	1 x 5" x 7" Endo Pouch detachable	10/Box
Diathermy Electrodes		
HE002	L-Hook Electrode, 5mm, 33cm with Diathermy connection	10/Box
HE002-C	L-Hook Electrode, 5mm, 33cm with Monopolar Cable	10/Box
SE002	Spatula Electrode, 5mm, 33cm with Diathermy connection	10/Box
SE002-C	Spatula Electrode, 5mm, 33cm with Monopolar Cable	10/Box

Code	Description	Pack
Verres Needles		
VN120	120mm Insufflation Needle	12/Box
VN150	150mm Insufflation Needle	12/Box
Aspiration Needles		
AN001	Aspiration Needles	10/Box
Anti-Fog Solution		
FG002	Clearvue De-Mister Solution with self-adhesive sponge pad	20/Box
Suction / Irrigation Kits		
SI2-5	Suction/Irrigation Kit, 3m single-spike tubing, 5mm, 33cm probe	10/Box
SI3-6	Suction/Irrigation Kit, 3m double-spike tubing, 5mm, 33cm probe	10/Box
Hasson Trocar and Cannula System		
EC10 SHL	10mm.10cm Blunt Trocar and cannula with Hasson cone	5/Box
EC12 SHL	12mm.10cm Blunt Trocar and cannula with Hasson cone	5/Box
Shielded Trocar & Cannula System		
EC5 SL	5mm 10cm Cannula with 5mm sharp Trocar with retractable blade	5/Box
EC5 DL	2 x 5mm Cannula with 1 x sharp Trocar with retractable blade	5/Box
EC10 SL	10mm 10cm Cannula with 10mm sharp Trocar with retractable blade	5/Box
EC10 DL	2 x 10mm Cannula with 1 x sharp Trocar with retractable blade	5/Box
EC12 SL	12mm 10cm Cannula with 12mm sharp Trocar with retractable blade	5/Box
Trocar Reducers		
EC10R	12 - 5mm Universal Reducer	20/Box
