Pro-Med Theatre Quality Instruments

PRO-MED

PRO-MED Instruments are expertly crafted in Germany and meet the very highest Operating Room quality standards and specifications. This instrument line is advantageously priced while offering greater quality and value compared to instruments from other sources. Having been proven over many years in hospitals throughout the country, PRO-MED is the “workhorse” of our theatre-quality ranges and includes over 12,000 different patterns and sizes for all specialties including General, Bariatric, Orthopedic, Cardiac, Gynecology, ENT and Plastic.

The instruments shown in this catalogue are the more common patterns used. For comprehensive PRO-MED catalogues showing the complete range, please talk to one of our Customer Service team. Alternatively, let us know what you are looking for, and we will find the instrument for you.

Alpha Ward Quality Instruments

ALPHA

Alpha Surgical Instruments have been designed to meet your standards for excellence and cost-effectiveness. Manufactured to our exact specifications, and from high-grade Japanese stainless steel, these instruments are a cost-effective answer for tight instrument budgets. Each instrument is properly hardened and tempered and then passivated, electrolytically polished and ultrasonically cleaned to provide a finish that matches instruments selling at several times the price. Quality materials and craftsmanship give you the performance you demand while lower manufacturing costs give you the prices you need. Available in most popular patterns, these instruments are ideal for outpatients, wards, clinics, training and veterinary surgeries.

Instrument Protection Caps

INSTUMENT PROTECTION CAPS

Instrument protection caps are designed to extend the life of your instruments. These caps protect your valuable instruments from unnecessary wear and tear, helping to reduce repair costs while giving you the peace of mind that your instrument investment is being protected.

Available in a wide variety of shapes, sizes and colours and available for scissors, scopes, osteotomes, retractors, skin hooks, clamps and most other instruments with a delicate edge.

Surgical Tags

SURGICAL TAGS

Surgical Tags are designed to help you identify your instruments, trays and carts as they move from staging areas to surgery to sterilization. Our tags allow you to indicate special handling instructions, secure trays and carts from tampering and quickly identify priority instruments for sterilization and repair. Tags can be easily adapted to your own specific coding needs.

Surgical Identification Tape will save time, effort and money by offering effective organization and identification of your instruments and withstands repeated sterilization cycles.

Miscellaneous

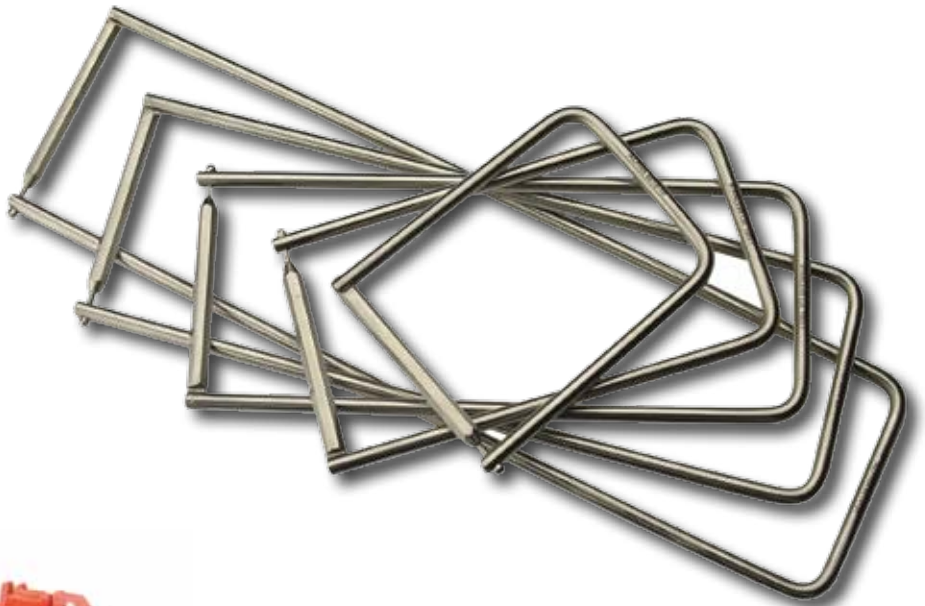

Cleaning & lubricating solutions, stringers & clips, insulation testing equipment to help you with your cleaning, sterilising and instrument maintenance needs.

For maximum protection, this wide range of instrument sterilising trays has your delicate instrument sterilising covered. These durable, lightweight trays are engineered for maximum protection and ease of handling, with transparent lids for quick instrument identification. Made from state-of-the-art plastic polymers, they are compatible for use with most sterilisation methods currently available. Silicone pin mats add extra protection and can be cut to size if required.
