

# HOW TO CARE FOR your Succulents

0418 959 997 | KAREN@SUNSHINESUCCULENTS.COM.AU | 76A SOLAR WAY CARLISLE, WA 6101

## HELLO

Thank you for taking me home, here's a couple of simple tips to keep me looking my best!

## WHERE WILL I LIVE?

**I love bright light:** Morning sun or filtered sun helps to keep me healthy and strong. Too much sun though and I may burn so please move me in summer months

## SHOWING OFF!

When I am at my happiest I will show my rich bright colours and grow

## CARING FOR MY YOUNG

If I lose a leaf just take it and pop it on some soil in a pot and it will grow into another me!

## NOT FEELING MY BEST

If I start losing colour don't despair, I just need a bit more sun!

## WATERING ME

I like a little drink when my soil is dry to touch.

**During summer** this might be as often as 2-3 times each week.

**During winter** probably more like 1-2 times a week.

A good drink stops me from showing my age and getting wrinkly

## DELIVERY OR ANY OTHER ISSUE

Please don't hesitate to contact my mum Karen if there are any issues with me and how I arrived into your life!
